TRUCK CAPS & LIDS

a BRAND FX company

GEMTOP TRUCK CAPS & LIDS MEAN BETTER VALUE, BROADER VERSATILITY

Why should you choose a GemTop? Because GemTop truck caps and lids are *steel tough*. Tough enough to stand up to rugged use far better than aluminum can. Tough enough to ward off rust and corrosion and protect your investment with double-sided galvanized steel and a deep and lustrous finish.

Competitively priced GemTop products deliver outstanding customizing flexibility with a host of options for enhancing functionality and convenience (see back page). And equipping a pickup with a GemTop offers a money-saving alternative to purchasing an enclosed van — with potentially greater resale value thanks to the much wider market for pickup trucks.

You can even transfer your GemTop to another vehicle when the time comes, for double the return on investment. What's more, GemTop products represent the culmination of 50-plus years of know-how. We've been building steel-tough truck caps since 1946, and have earned a reputation for quality and value that's unsurpassed in the industry.

Gemsport

Our steel-tough cap lineup begins with Gemsport, providing a cab-high fit and such productivity and convenience options as lift-up side doors complete with paddle handles, two-stage rotary latches, and gas-filled assist struts. You won't find ruggedness like Gemsport's anywhere but in the GemTop truck cap family.

Outfitter

If you want a cap that will blend well with your truck's sleek lines, then the Outfitter is the cap for you. Its cab-high design and contoured sides offer a custom look. At a price that will blend well with your budget.

Workmaster

Looking for a competitive edge? Choose the truck cap designed to help you work more productively, and therefore more profitably: the GemTop Workmaster. An unbeatable choice for construction, electrical, telecommunications, plumbing, HVAC, pest control — you name it. In addition to a long list of job-tailoring options, the Workmaster offers three Plus Top configurations for applications requiring 48 to 60 inches of overall interior height (44 to 58 inches with compact trucks).

Shown with optional walk-in rear doors

Jobsite

With a GemTop Jobsite truck cap, you don't have to scrimp on sturdiness to save. A lighter-weight alternative to our Workmaster model, Jobsite delivers GemTop steel-toughness and quality for about what you'd expect to spend on an aluminum top. If you don't need as much cap as a Workmaster, don't settle for less than a Jobsite.

Standard Truck Cap Features*

	Gemsport	Outfitter	Workmaster	Jobsite
Double-sided galvanized steel skin for outstanding strength, durability, and corrosion resistance	24-gauge	24-gauge	26-gauge	26-gauge
17-gauge galvanized steel framing with welded-in base rails for added structural rigidity	•	•	•	•
Baked enamel finish , inside and out, for lasting good looks and enhanced resistance to corrosion	•	•	•	•
Foam insulated roof to help minimize noise and prevent interior condensation	•	•	•	
Rubber seals and weatherstripping around doors and windows	•	•	•	•
Continuous door hinges for smooth operation, positive alignment, and long-term dependability	•	•	•	•
Paddle type handles , easy to operate even with gloves		•	•	
Locking rotary latches — durable, high quality hardware to help keep tools and cargo secure		•	•	•
Fixed front window of clear tempered glass, resists scratching, scuffing, discoloring	•	•	•	
Lift-up rear half-door — fits snugly against the tailgate; affords easy inside access	•		•	•
Double walk-in rear doors for especially easy interior access with no tailgate to reach across		•		
12-volt dome light for extra convenience when the work day stretches past sundown	•	•	•	

* See optional equipment on back page.

Commercial Tonneau Cover

Created with all those naturally punishing workdays in mind, our Commercial Tonneau Cover offers durability and value in every detail. Dual lids skinned with 17-gauge galvanized steel, bonded and riveted to welded frames of 1-inch square aluminum tubing. Rugged full-length hinges.

Two gas-filled assist props per lid, for easy lifting action. Plus the widest access in the industry — a full 45 degrees — to facilitate loading and removing bulky objects.

GT Classic Tonneau Cover

Dress up your truck while increasing its utility with the sporty and rugged GT Classic. This stylish Tonneau Cover features a tough, 24-gauge galvanized steel top layer, a patented quick-release hinge system, a low-profile lift handle, and gas-filled props.

Some of the product features displayed in this publication are optional at extra cost; see your GemTop dealer for complete information about standard and optional equipment availability. Product specifications are subject to change without notice, and GemTop Manufacturing assumes no liability for such changes.
